General Terms and Conditions – Residential Applications

The following Terms and Conditions apply to Enbridge Gas Inc.'s ("Enbridge Gas") Savings By Design Residential Program (the "Program"). BY SIGNING THIS APPLICATION ON THE REVERSE SIDE, THE APPLICANT AGREES AND CERTIFIES THAT I) IT MEETS THE PROGRAM ELIGIBILITY REQUIREMENTS; II) THE INFORMATION SUPPLIED ON THIS APPLICATION IS TRUE AND CORRECT; III) IT HAS READ AND UNDERSTANDS THE PROGRAM DOCUMENTS; AND IV) IT AGREES TO ABIDE BY THE PROGRAM RULES AND TO BE BOUND BY THE PROGRAM DOCUMENTS AND THESE GENERAL TERMS AND CONDITIONS.

1. The Program consists of two components:
 - i) Integrated Design Process ("IDP") – Under the IDP, Applicant will participate in a series of building design team meetings to identify the optimal mix of design elements and technologies to maximize energy efficiencies. Enbridge Gas will cover the costs associated with scheduling and holding the design team meetings as well as the professional fees charged by the design team experts. Applicant is responsible for its own costs. This incentive has no cash value.
 - ii) Energy Performance Incentives – Applicant(s) that complete the IDP component of the Program are eligible for the following financial incentives (as applicable):
 - Applicant(s) approved to participate in the Program for the first time are eligible to receive \$2,000 per residential home (up to a maximum of \$100,000 for 50 homes) for each residential home built to exceed the 2017 Ontario Building Code's ("OBC") energy performance requirements by at least 15 percent;
 - Applicant(s) approved to participate in the Program for the second time are eligible to receive \$1,000 per residential home (up to a maximum of \$100,000 for 100 homes) for each residential home built to exceed the 2017 OBC's energy performance requirements by at least 15 percent; or
 - Applicant(s) approved to participate in the Program for the third time are eligible to receive \$500 per residential home (up to a maximum of \$100,000 for 200 homes) for each residential home built to exceed the 2017 OBC's energy performance requirements by at least 15 percent.
2. In order to apply for the Program and be eligible for financial incentives, the Applicant must:
 - a) Be located in the Enbridge Gas Inc. (Operating as Enbridge Gas Distribution) service area; and
 - b) Ensure that the project includes natural gas as one of the primary fuel sources in the final design; and
 - c) Submit a complete and fully signed Application to Enbridge Gas by Dec. 31, 2021; and
 - d) Successfully complete both components of the Program, including designing and constructing residential homes in Enbridge Gas service areas which exceed 15 percent of the 2017 OBC's energy performance requirements by no later than three (3) years from the date of IDP.
3. The Applicant agrees to participate in a measurement and evaluation study for the purpose of analyzing the Program's performance and improve future Program designs. Applicant agrees to fully cooperate with the study team and participate in the study if asked to participate.
4. Enbridge Gas' offer of Incentive Payments may be withdrawn by Enbridge Gas at any time and will be withdrawn if: a) the Applicant fails to fully meet the eligibility criteria or fails to fully participate in the IDP component of the Program including attending all meetings; or b) the Applicant otherwise fails to comply with any of these General Terms and Conditions.
5. Applicant must complete and submit this application and complete the IDP before Dec. 31, 2021. Enbridge Gas reserves the right to accept or reject any application in its sole discretion.
6. Once a residential home is constructed and provided the property exceeds 15 percent of the 2017 OBC's energy performance requirements which would include natural gas as one of the primary fuel sources, as determined by Enbridge Gas in its sole discretion, the Applicant will be eligible to receive an incentive payment (described above) for each eligible residential home completed and ready for occupancy within three (3) years from the IDP Date. For greater certainty, in no event will Enbridge Gas pay an incentive for residential homes completed after Dec. 31, 2024.
